

International Journal of Modern Engineering Research (IJMER)

Volume : 14 Issue : 4 Series 2

ISSN : 2249-6645

Jul.-Aug. - 2024

Contents :

Enhanced Privacy-Preserving Data Sharing Framework for Cloud Environments	117-123
Emotion-Based Music Recommendation System Using Machine Learning	124-131
Realtime Gender and Age Detection Using CNN	132-136
An Efficient Method for Text Classification Using Naive Bayes	143-148
Open Source Trained Multiple Private Chatgpt PDF	149-157
Forecasting New Product Demand Using Machine Learning	158-163
Optimal Drug Dosage Control Strategy of Immune Systems Using Reinforcement Learning	164-172
Design of Software and Hardware for Feed Dosing in Swine	173-182
Feasibility Assessment of Solar Panel Installation in Chiswick and Tower Bridge – London, To Enhance Renewable Energy and Sustainable Urban Development	183-189
The Effect Of Preferences And Satisfaction On The Loyalty Of Local Chicken Meat Consumers (Survey at Griya Pesona Praja Housing, Subang Regency)	190-199
Analysis of the Operation of a Disc Harrow in a Plum Garden	200-206
Identification of Bacteria and Molds In The Process of Bioethanol Production Using A Mixture of Sheep Manure and Empty Palm Oil Bunches	207-215
Quantum Controller of Gravitational Mass Using Free Electrons Gas	216-223
To study the influence of shift working of IT Workers based on Occupational health effects & compare with health effects of Industrial workers”	224-252
