Contents :

A Critical Appraisal of the Rights of Persons with Disabilities Act, 2016: Harmonizing Indian Disability Law with the UNCRPD	01-03
Modeling Competitive Fleet Management Dynamics Through Perfect Aggregation and Optimal Effort Analysis	04-15
Experimental Investigation of Lateral Intake-Induced Hydrodynamic Alterations in the Vertical Velocity Structure of Open-Channel Flow	16-29
Vandermonde Determinant and Its Relationship to Polynomial Regression	30-36
Effect of Temperature Variation on Electrical Conductivity (EC) Modern Sensor and Visibility of using it	37-45
A multiple-mode universal biquadratic circuit employing OTAs and CF	46-54
Analytical Investigation of Perforated Beams subjected to Lateral Torsional Buckling	55-61
Risk Management Analysis of the Borarsi Public Open Space (RTP) Development Project, Manokwari Regency, West Papua Province	62-74
Spatial-Based Analysis Of Space Utilization Violations In Residential Area Of Malang Regency	75-87
Analysis of Occupational Safety, Health, and Environmental Risk Management in the Environmental Roads and Drainage System Construction in Coastal Fishing Villages Based on ISO 31000:2018 in Tual City, Maluku Province	88-96
A Review of Hydraulic Performance and Energy Dissipation in Vertical Drops with Screen-Based Dissipators	97-125
A Construction Management Analysis with Community Empowerment System on Rigid Pavement Road Construction Project at Rejoso – Gading Road Section of Pasuruan Regency	126-134
